UMA HUGGINS

I am interested in web development, data analytics and visualization. Enjoy tackling intricate data projects from inception to intuitive presentation of results using the latest and greatest in technology.

🎓 EDUCATION & PROFESSIONAL JOURNEY

2006 | 2010

High School
New York, NY   📍 Stuyvesant

- In a specialized math & science school with an interest in history and literature.

2010 | 2014

College
College of Arts & Sciences   📍 NYU

- Primary interests: Economics, Neuroscience and Psychology. PS: Should have done more coding
- B.A. Economics, B.A. Psychology

2015 | 2018

Data science consulting and freelance
📍 Virtual

- Consumer Behavior Lab, NYU: Introduction to academic research, experimental design, data sanitization and importance of replicability (with Professor Minah Jung)
- Advanced analytics, databases, ML algorithms, and the rich ecosystem of R & Py packages (with Prof Vishal Singh)

2018 | 2018

The Grace Hopper Program
New York, NY   📍 FSA

- Quick foundation into fullstack development: databases, servers & React framework.

2018 | 2020

Freelance Data science & JAMStack development
📍 Virtual

- Deep dive into JAMStack, GraphQL & serverless architecture. Bias towards analytics & visualization projects.

2020 | current

Co-founder
New York, NY   📍 OnTopic, Inc.

- The apotheosis of my interest in bringing data and statistical insights to a greater audience using cutting edge technologies and a visualization-first approach. Developing an educational product to distill and present data insights to students, researchers, and population at large.

TOOLS OF THE TRADE

- 📈 Data science: R | Python
- 🎨 Visualization: Highcharts | Nivo | DeckGL
- 🗄 Databases: GraphQL | Hasura | SQL
- 💻 JS React Frameworks: Next.js | Gatsby.js
- 🖼 Design Tools: Figma|Chakra|Tailswind
- ☁️ Cloud Serverless: GCP|AWS|Docker
